Handbook for SSE Council Members

Originally compiled by Dale Clayton, January 1, 2009
Current version prepared by Cynthia Weinig, June, 2017

Table of Contents

SSE Council Members and Other Contacts	1
Duties of the President (1 yr term).....	3
Duties of the North American Vice-President (2 yr term).....	6
Duties of the non-North American Vice-President (2 yr term).....	6
Duties of the Executive Vice-President (3 yr term).....	7
Duties of the Secretary (3 yr term).....	11
Duties of the Council class members (3 yr term).....	14
Compensation for Council Members	15
SSE Graduate Student Advisory Council	16
2017 SSE Committee Memberships	19
Descriptions of Committees	21
SSE Elected Representatives 1988-2017	28
Past SSE Editorial Board Members	30

SSE council members and other contacts: 2017

(Names of voting members are in bold face)

President-Elect

Hopi Hoekstra

Department of Organismic and Evolutionary
Biology
Harvard University
Cambridge, MA 02138
(617) 496-9040
hoekstra@oeb.harvard.edu

President

Sally Otto

Department of Zoology
University of British Columbia
Vancouver, BC, Canada V6T 1Z4
(604) 822-2778

president@evolutionsociety.org

President-Past

Kim Hughes

Department of Biological Science
Florida State University
Tallahassee, FL 32306
(850) 645-8554
kahughes@bio.fsu.edu

Executive Vice-President

Andrea Case

Department of Biological Sciences
Kent State University
Kent, Ohio, USA 44242
(330) 672-3699
acase@kent.edu
execvp@evolutionsociety.org

Vice-Presidents

Jenny Boughman (North American)

Department of Zoology
Michigan State University
East Lansing, MI, USA 48824
(517) 353-8636
boughman@msu.edu

Isabel Gordo (non-North American)

Instituto Gulbenkian de Ciênciã
Potugal
+351 214407915 ext 4215
igordo@igc.gulbenkian.pt

Secretary

Cynthia Weinig

Departments of Botany and Molecular Biology
Program in Ecology
University of Wyoming
Laramie WY 820701
(307) 766-6378
cweinig@uwyo.edu
secretary@evolutionsociety.org

Council – Class of 2017

Kelly Dyer

Department of Genetics
University of Georgia
Athens, GA 30602-7223
(706) 542-3154
kdyer@uga.edu

Kristi Montooth

School of Biological Sciences
University of Nebraska
Lincoln NE, 68588-0118
(402) 472-8455
kmontooth2@unl.edu

Council – Class of 2018

Susan Alberts

Department of Biology
Duke University
Durham, NC 27708
(919) 660-7272
alberts@duke.edu

Rebecca (Becky) Fuller

Department of Animal Biology
University of Illinois - Champaign
Champaign, IL 61820
(217) 333-9065
fuller@life.illinois.edu

Council – Class of 2019

Daniel Matute

Department of Biology
University of North Carolina
Chapel Hill, NC 27599
(919) 962-4442
dmatute@email.unc.edu

Trisha Wittkopp

Department of Ecology and Evolutionary Biology
University of Michigan
Ann Arbor, MI 48109
(734) 763-1548
wittkopp@umich.edu

Graduate Student Council Chair

Megan Kobiela

100 Ecology Building
1987 Upper Buford Cir
St. Paul, MN 55108
kobie003@umn.edu

SSE council members and other contacts: 2017

(Names of voting members are in bold face)

Editor-in-Chief, *Evolution*

Mohamed Noor

Department of Biology
Campus Box 90338

Duties of the President Elect, President, and Past

President (1 yr term each)

Overview and General Issues

The SSE is a vibrant professional society, connecting evolutionary biologists from around the world through our annual meeting, workshops, and journals (*Evolution* and *Evolution Letters*). To do so effectively in the face of the changing landscape of expectations from societies and journals, as well as threats to the study and teaching of evolution, the SSE Presidents play a leadership role for the Society. The Presidents should ensure that the Society is proactive about changing opportunities and responsive to the needs of its members, while always keeping in mind the mission of the society to promote “the study of organic evolution and the integration of various fields of science concerned with evolution.”

While the current President is the Chair of the Council during the year that they serve, the current President should work closely with the Past President and President Elect to steer the directions and activities of the Society in a strategic manner. Together, the three co-Presidents, as well as the Secretary and Executive VP, form the Executive Council. The Executive Council is responsible for approving appointments, letters, and other activities of the Society, while major decisions on funding, Council nominations, and new initiatives must be approved by the full Council.

To be most effective, the three Presidents must be alert to both slowly emerging trends and quickly unfolding events and policy developments. It is necessary to be strategic in identifying which issues to become engaged in, how to be most effective, and who else to network and work with to accomplish shared objectives. Indeed, being responsive and networking effectively are important traits for successful Presidents of the SSE.

The Presidents, particularly the current President, must maintain contact with:

- The **Secretary** and **Exec. VP**. The Presidents need to be in continual contact with the Secretary and EVP regarding important matters of the Society and its business. The Executive Council, consisting of these five individuals, also serve as the collective memory of the Society and its conscience (e.g., in recognizing those who deserve special recognition and awards).
- The **Editor-in-Chief** and publisher (currently **Wiley-Blackwell**). Issues with the journal requiring discussion arise regularly. The journal is the most enduring and visible product of the SSE and revenue from its publication supports most of the society’s activities. It is essential that the President be aware of issues that may affect the success of the journal, including the structure and function of the relationship between the SSE and the publisher. Both the Editor-in-Chief and the publisher must have access to the Executive Council for any potential issues that might arise.
- **SSE committee chairs**
- SSE meeting partner societies (**ASN** and **SSB**) including their officers
- The European Society for Evolutionary Biology (**ESEB**). This includes getting to know and staying in close contact with their officers. <http://www.es eb.org/>

- The National Center for Science Education (**NCSE**) <http://www.ncseweb.org/> NCSE works daily to take on those attacking the teaching of evolution around the country. It works with local teachers and school boards, among others.
- The American Institute of Biological Sciences (**AIBS**) www.aibs.org and the American Association for the Advancement of Science (**AAAS**) <https://www.aaas.org/>. The SSE is a member organization and has a representative on the AIBS Council. AIBS provides public outreach, lobbying and educational resources for life sciences researchers, including evolutionary biologists.

While affairs of the SSE have generally been informal and collegial in the past, friction or conflicts can arise. It is the particular duty of the current President to be alert to such issues and to respond quickly to avert conflict, if this can be managed, or to establish a more deliberate process if a serious situation develops that requires intervention. In such situations, having a close network of known and trusted colleagues can be crucial.

Specific Duties of the Current President

- Chairing the SSE Council meetings. The SSE Council typically meets three times each year. The main Council meeting occurs on the first day the SSE annual meeting in June or July, and is followed by a shorter exit meeting on the last day of that meeting. The Council also holds a mid-year meeting (typically lasting a day) in January or February. It is the President's responsibility to chair these meetings and to set the agendas. Agendas for the mid-year and main summer meeting typically include both old and new business, committee reports and discussion items. The President works closely with the Secretary to finalize and distribute the agendas and documents for these meetings in a timely manner, preferably at least a week in advance of the meeting. The agenda for the exit meeting is less extensive and is usually based on business conducted at the main meeting.
- Chairing the SSE Executive Council.
- Giving the Presidential address at the annual meeting
- Working with the EVP to run the open membership meeting (a.k.a. the "business meeting") at the annual meeting
- Attending Joint Council meeting at the annual meeting with SSB and ASN, chairing of which rotates among the current President of the three societies.
- Serving on the Fisher Prize committee, which consists of the President, Past President and President Elect.
- Appointing one member to the nominating committee (see Article 5 of the Constitution)
- Every three years, appointing two members of the nominating committee to select the new Editor-in-Chief, and Chairing this committee (see Article 5 of the Constitution).
- Appointing chairs for all committees and asking them for regular updates and reports
- Appointing the members of the Hamilton Award committee, including the Chair.
- Appointing members to the Diversity committee
- Appointing members to the Policy committee
- Appointing members to the Finance committee (see Article 4 of the Bylaws)
- Communicating to membership via regular email messages, posts on social media and newsletters

Specific Duties of the President Elect

- Serving on the SSE Executive Council and Council.
- As the newest of the Presidents, the President Elect brings new energy and ideas to the Executive Council. As such, the President Elect should pay special attention to opportunities and challenges that may face the Society and bring these to the Executive Council when appropriate.
- Attending Joint Council meeting at the annual meeting with SSB and ASN.
- Serving on the Fisher Prize committee, which consists of the President, Past President and President Elect.

Specific Duties of the President Elect

- Serving on the SSE Executive Council and Council.
- As the President with the most experience, the Past President serves an important role in aligning activities with the wishes of the Council. As such, the Past President should pay special attention to carrying out the strategic plan of the Council and should chair visioning meetings at regular intervals (last in 2017).
- Attending Joint Council meeting at the annual meeting with SSB and ASN.
- Chairing the Fisher Prize committee, which consists of the President, Past President and President Elect.
- Announcing the SSE awards and introducing the President before his/her talk at the annual meetings.

The three Presidents also break ties when they arise in any Council vote, reaching a decision through discussion amongst themselves and a vote, if necessary (following the majority decision).

It is expected that these duties will be carried out promptly (e.g., responding to votes and email queries within three business days), communicating when necessary about any potential delays (e.g., due to travel).

Duties of the North American and non-North American

Vice-Presidents (2 year terms)

- Participate in all council activities
- Evaluate candidates for the Dobzhansky Prize (with the Secretary).
- Serve on Rosemary Grant Student Research Awards committee; Chair the committee the second year of the term
- The Non-North American VP is Chair of the International Committee
- Serve on additional committees, as needed

Duties of the Executive Vice-President (3 yr term)

The Executive VP has the most complicated and time-consuming job in the society. Among other things, the EVP is the financial officer of SSE, which has no treasurer.

Specific Duties by Month:

January

- Attend 1.5-day mid-year meeting, location determined by President-elect.
- Submit a mid-year financial report to the Council, together with your recommendations and perspective on the financial health and direction of the Society.
- Pay Handling Editors of *Evolution* their stipends around January 15th

February

March

- Liaise with the Business Office on financial information, submitting the first quarter financial information (e.g. quarterly financial spreadsheets showing expenses and income) to them.
 - Keep financial records (e.g. Excel spreadsheets) with all checks written and income deposited and recorded. Keep files (paper and electronic) of **all** SSE matters, including contracts, receipts for payments made, etc.
 - Make sure taxes are filed and that you get an annual financial report from the accountants and auditors. Decide whether and when accounts require formal auditing. Change accountants and auditors as is felt necessary; this is the kind of decision that it is wise to consult the Council and ask for their approval.
 - Provide information to accountants for preparing 1099 forms (social security numbers and home addresses); send the completed forms to payees. There are about a half dozen or fewer of these per year (students paid to do jobs for SSE, Exec. VP and Secretary, sometimes Editors, etc.). It is helpful to get this information at the time you pay them, although you do NOT need this information for most payees (e.g. symposium speaker travel reimbursements).
 - Announce call for symposium proposals on website, social media and in Journal and newsletter.
-

April

- Web Site management/design/updating with Secretary and Communications Director.

May

- Sign contracts for annual meeting. These should be reviewed by a lawyer* prior to signing and circulated to other societies for their approval.

*All three societies have agreed to pay the lawyers' fees from the conference budget for meeting contract reviews.

- Collect proposals for symposia and circulate them to all Council members a few weeks before the June Council meeting. Inform Secretary that Symposia proposals need to be added as an agenda item and discussed at the Council meeting. Lead the discussion and vote at the Council meeting to choose symposia; inform all proposal entrants whether their proposal was accepted or not. Symposium organizers get \$6,000 to cover expenses, to be divided among themselves and speakers to cover travel costs as they see fit. Registration fees are NOT waived for symposium organizers or speakers, although they can use the \$6,000 to cover reimbursement of registration fees if they choose to do so. Reimbursements for symposia should be routed through organizers, who will determine how the budget is dispersed, and reimbursement requests forwarded to the EVP (electronic receipts or scans preferred).

June

- Attend joint council as well as SSE council meetings.
- Submit and present financial report at council meeting. Send a copy to all Council members **prior to the annual meeting**, asking the Secretary to add the discussion of the report to the agenda.
- Work with President to decide how to run the membership meeting; present a brief summary of society business there.
- After meeting, accept the payment from meeting organizers for the entire profit from the meeting (if there is one). Distribute the profit according to the following formula:
 - Divide profits according to the proportion of people registered as members of each society of the total number of attendees; profit from non-members is divided evenly between the societies. Profits for members of more than one society are divided evenly between those societies.
 - This requires reminding the meeting organizers to collect data on the registration forms as to society membership, with members of more than one society being able to check off all memberships. Also remind meeting organizers to set registration fees with severe penalties (that is, one pays far more for registering as a non-member than for the combined cost of membership + member registration) for non-member registration; this has been implemented to increase membership and has been a very successful strategy. All three societies have agreed to all of this.
- Submit second quarter financial spreadsheets showing expenses and income to accountants and auditors.
- Pay Editors and Secretary their stipends around July 1; make sure whether they want the money to go to their institutions or to be made out to them personally before writing checks.

July

- Process all reimbursement requests arising from the annual meeting
 - Send award checks to recipients
 - Coordinate with the conference organizers to reconcile budgeting for the annual meeting
-

August

September

- Submit third quarter financial spreadsheets showing expenses and income to accountants and auditors.
-

October

November

December

- Submit fourth quarter financial spreadsheets showing expenses and income to accountants and auditors.

Broad Duties:

1. Chief responsibility is for the finances and financial health of the Society, keeping council apprised of what is going on and consulting with council on major decisions and changes and for expenses over ca. \$5,000.

- Monitor investment account.
- Coordinate with the business office to set aside and monitor money for regular expenses in a checking account, to keep accurate and current records in spreadsheet of income and expenses, and keep in contact with bank and investment firm regarding finances and financial records..

- Manage routine expenses and those under \$5,000 can be spent without needing to consult with council.
- Avoid writing checks to yourself. Be alert to any conflicts of interest in any financial decisions. Consult with someone with formal training in identifying conflicts of interest as needed.
- Pay all bills and deposit all income for the society (**EXCEPT** for payments to the Executive Vice President, which are made by the Secretary; other bills can be handled by the Secretary by mutual agreement –e.g. student travel fellowships). Both the current Executive Vice President and the Secretary should have signature authority on all accounts held by the Society.
- Pay travel expenses for Council members to meetings; symposium participants; pay other expenses as reasonable (i.e. for President to travel to AIBS meeting, for supplies and other expenses). This is a fair bit of work for the month or two after the meeting, but not much work for the rest of the year.
- Serve as the main liaison with publisher; the Secretary also interfaces with the publisher fairly regularly, as do the Editors in Chief. Oddly enough, your contact with the Editors will be very limited.

- 2. Annual meeting planning and preparation.** In addition to the financial side of the annual meeting, the Executive Vice-President works with meeting hosts to make sure everything is in place for the meeting, including scheduling of Council meetings at the start and end of the meeting, symposia, banquet, President's speech etc. Review previous meeting programs to make sure all events get scheduled.

 - Make sure annual meetings are scheduled some years out, in coordination with the Joint Meeting Committee and other societies.
 - The Executive Vice President is Master of Ceremonies at the Banquet and Awards Ceremony. Plan and run the banquet events and present awards and prizes (including bringing checks) at annual meeting, in coordination with meeting hosts (they do all of the arrangements for food, etc.; you just want to choreograph the ceremonial and entertainment portions); write awards speeches with input from nominations committee and president. Make sure talks presented by awardees are scheduled well in advance with meeting planners.
- 3. Web Site management/design/updating with Secretary and Communications Director.** Do a web report as part of the Financial report showing usage at the annual meeting.
- 4. Serve as institutional memory, assist the President as needed, inform and consult with the president and secretary as needed on matters of importance to the society; make suggestions and push for changes in direction as you feel is important (or not). A close relationship and frequent contact should be maintained with the Secretary.**
- 5. There may be other activities that can be initiated.** For instance, an evolution poetry contest was initiated and run by the Executive Vice-President for two years. The contest was extremely popular, with a website component, awards and poetry readings at the banquet at the annual meeting. Prizes can be donated from publishers or moderately priced prizes can be purchased. The poetry got a write up in Science, which was great PR for the Society and for evolutionary biology. Another example of an idea would be a photography/fine arts contest.
- 6. Nominate the next Executive Vice-President; consult with others as needed.**
- 7. Make sure the Society is running smoothly.**

Duties of the Secretary (3 yr term)

The Secretary (together with the Executive VP) is responsible for day-to-day operations of the society, and s/he should be a good communicator. Among other things, the secretary is responsible for running the elections and the Dobzhansky Prize competition.

Specific Duties by Month:

January

- 1st Update Handbook for Council Members and send to council (Officers, publisher information as needed, committee membership), Update SSE Website
 - 1st Work with President on committee appointments, especially the nominating committee.
Send second announcement of Rosemary Grant Competition
 - Tba Work on the Mid-year meeting agenda, attendance, etc in collaboration with the President and EVP.
 - 31st Fisher award deadline.
-

February

- 1st Communicate with the chair of the nominating committee, including providing committee chair with the committee guidelines and solicit nominations from membership with a deadline of March 15th. Remind the chair that we to provide a list of duties to potential nominees, and need a slate of nominees by the beginning of June so the Council can ratify the slate at the annual meeting; the Council will need the nominees' CVs for the ratification. This means that the committee has to start in February, as not everyone contacted will want to be nominated and run.
 - 1st Work with Presidents on Fisher Award – decision by end of March.
 - 1st Rosemary Grant Deadline
 - 15th Dobzhansky award deadline
-

March

- 1st Make sure local organizers put the SSE and joint Council meetings on the schedule for the June meeting (opening and exit meetings) (The SSE executive committee, including Presidents, EVP and Secretary participate in the Joint Council meeting).
 - 15th Decide on Dobzhansky winner by this date, Inform winner by April 1st,
Send letters to applicants not selected
-

April

- 15th Work with Business Office to coordinate student travel supplements.
-

May

- 1st Call for Council meeting agenda items.
Distribute minutes of previous year's meeting to the Council.
Coordinate with other societies regarding Joint Meeting (not in charge of joint meeting again until 2019).

Solicit CVs from nominees

June

Take minutes at SSE Council mtgs, & Joint Council meetings every 3rd year.
Circulate minutes to the Council following the meeting.
Council ratifies slate at the annual meeting.
Introduce Dobzhansky award winner at talk & present prize at banquet
President's note to membership should include summary of Council business.

July

1st Dobzhansky and Fisher Prize winner announcements to journal & SSE website.

August

1st Prepare ballot with names, and request "why vote for me" statements.
Proofread the ballots
Ballot in journal doesn't include CVs, but CVs are included in web-based election materials.
Poll Council for location and dates of the mid-year meeting

September

Send candidate statements to journal by September 10th, for the October issue.

October

10th Call for nominations for Dobzhansky, Fisher, and Gould awards, to run in November journal, Announce Rosemary Grant Competition in the Nov journal
20th Submit election materials to Bill Dahl of the business office; send email to members and ask them to vote in November (could combine with award announcements, could be sent by President).
30th Call for award nominations in other venues:

- place on Evoldir and Ecolog list servers
- distribute to membership list
- add to SSE Website

November

1st Run election for a two- to four-week period, beginning November 1st.

December

- Get election results from Bill Dahl; after the President calls successful candidates, notify those who are not successful candidates.
- Send Constitution/Bylaws and info about mid-year meeting to election winners.
- Send winner names to journal by Dec 10th.
- Ask Council to approve the new class of Assoc. Editors for the journal.
- Final call for nominations for Dobzhansky and Fisher awards.
- Work with President and EVP to organize mid-year meeting in January
 - Get Dobzhansky and Fisher award announcements on list servers

Broad Duties:

- With the President, EVP, and business office, coordinate communication with the membership.
- Maintain communication between journal office and society. In general make sure journal has announcements, etc. in a timely manner.
- Following nomination of an Editor-in-Chief by the Editor-in-Chief Nominating Committee, the Secretary must call for a secret ballot to the council to actually elect the Editor-in-Chief.
- Assist the President. In general, the Exec-VP and the Secretary tend to provide most of the information/support for the President. Thus, if the President is contacted regarding society business, s/he will generally contact the Exec-VP and the Secretary as they will have the longest “memories” in the society. This is a variable job – some Presidents are proactive, others are very hands-off. It is best to coordinate with the Exec-VP when there is society business involved.
- Be flexible. The Secretary tends to be the person people approach to get answers. Members often e-mail asking for confirmation of their membership status. You can send those to Heather Cacanindin of the business office. Commercial interests may contact the Secretary to gain access to the Society (e.g., offering services). Bill Dahl at the business office can help with renting our membership list for paper mailings. Such requests must be approved by the Secretary.
- Handle copyright requests:
 1. Wiley-Blackwell administers permissions for SSE regardless of year of publication. We are signatory to the industry-wide STM Agreement that regulates fees for reuse of published materials and terms of re-use, but rights for reuse are granted back to authors on an exception basis (see #3).
 2. If someone asks you for permission, you can always refer them to the Journal's permissions page. To do so, please point people to this url: <http://wileyonlinelibrary.com/journal/evo>. Once there, they can click on Permissions in the About this Journal menu on the left hand side of the page. The Permissions page has everything a requester needs, but should someone come back to you with a problem, please refer them to me.
 3. Be aware that authors do not need permission to reuse their own figures in new works, as long as they cite Evolution as the source of those figures, and use no more than 15% of the original article.
 4. We do not permit anyone, including the author, to post a published article on an open website. Piracy and phishing are very real threats to journal content these days, and crawlers have no trouble locating material posted outside the journal website. However, authors may post the accepted post-review manuscript 12 months after initial publication, with a link to the article of record.

Duties of the Council Class members (3 yr term)

Attend the mid-year meeting (1 full Saturday in Jan or Feb)

Review Rosemary Grant Award applications (Feb-Mar), (1st and 2nd yr council members)

Serve on the Gould Prize nominating committee (Jan-Feb), (3rd yr council members)

Attend the annual society conference, including Council meetings before and after the conference (June)

Communicate as needed on society business throughout the year, including but not limited to:

- approving each new class of Associate Editors (AEs) for *Evolution*
- approving each new Editor-in-Chief for *Evolution*
- approving each slate of nominees for open council positions
- evaluating conference symposium proposals
- providing input to Council on budget issues, Handbook and By-Law amendments or revisions, conference logistics, etc.

It is expected that these duties will be carried out promptly (e.g., responding to votes and email queries within three business days), communicating when necessary about any potential delays (e.g., due to travel).

Compensation for Council and Committee Members

Reimbursements

Expenses for the annual meeting, including registration, are paid up-front by individuals or their host institutions. After the annual meeting, participants email scanned receipts to the EVP, who will send reimbursement checks. If checks are to be made out to individuals, social security (or passport) numbers are also required. Travel and lodging expenses for the mid-year meeting are reimbursed by the publisher.

For the annual meeting, SSE covers coach-class travel, lodging, registration, and banquet/super social ticket for the following SSE Officers: President, President-Elect, Past President, Executive VP, North American and Non-North American Vice Presidents, Secretary, Education Committee Chair, Editor-in-Chief. Per diem expenses are not reimbursed.

For other council members: SSE covers registration, banquet/super social ticket, coach-class travel and up to \$500 to cover accommodation expenses. Per diem expenses are not reimbursed.

For the Hamilton Committee Chair: SSE covers registration, banquet/super social ticket, coach-class travel and up to \$500 to cover accommodation expenses. Per diem expenses are not reimbursed.

For the GSAC chair and past chair: SSE covers registration, banquet/super social ticket, coach-class travel and up to \$500 to cover accommodation expenses. Per diem expenses are not reimbursed.

For other GSAC reps attending the annual meeting: SSE covers registration and up to \$500 to cover travel and accommodation expenses. Per diem expenses are not reimbursed.

Executive Vice President

Currently receives a stipend of \$15,000 per year.

Secretary

Currently receives a stipend of \$12,000 per year.

Editor

Effective July 1, 2016, yearly allocation to the Evolution EIC will be \$30,000, and yearly allocations to the two handling editors will be \$15,000 each. \$10,000 will be used to refund registration fees for all the associate editors of Evolution who attend the yearly conference (starting in 2017), and SSE will make up any shortfall (i.e., if more than ~23 AEs attend in one year).

The timing for yearly allocations will be:

EIC: paid each July 1 beginning 2016

HEs: paid each January 15 beginning 2017

SSE Graduate Student Advisory Council

The main goal of the SSE Graduate Student Advisory Council (GSAC) is to represent the interests of SSE's graduate student membership to the SSE Council and vice versa. Graduate students represent 40% of SSE's membership, and as such, have a vested interest in SSE's overall direction and planned initiatives. GSAC members network with SSE student members, liaise between Council and graduate student membership, and facilitate interactions between SSE faculty and graduate student members. The GSAC will provide a sense of community, and a source of information, for graduate students and postdocs in evolutionary biology during their graduate career and upon making career transitions.

GSAC Structure

- The GSAC will consist of 4 members, with two new members added each year.
- Each member will serve a two-year term, beginning and ending January 1.
- A senior GSAC member will serve as GSAC Chair.
- The GSAC should hold their own meetings, whether in person or through Skype or similar electronic communication, as often as they deem necessary.

GSAC member application and selection process

- A call for GSAC applications will be emailed to graduate student membership, and posted on the SSE student Facebook page, no later than March 1 of each year.
- To be considered for GSAC membership, applicants will submit an application to the SSE Secretary by April 30 of each year.
- Application components will include a maximum one-page statement of interest and a CV, to be emailed to the SSE Secretary. Applications will be transferred to the GSAC for their consideration.
- The GSAC will choose new members. With several criteria in mind (listed below in "GSAC member requirements"), new members will be selected based on enthusiasm, experience, and novel ideas proposed in their statements of interest.
- GSAC members cannot serve consecutive terms. However, former GSAC members shall be eligible to serve a second term one year after the expiration of their previous term.

GSAC member requirements

- GSAC members must be graduate students or postdocs.
- GSAC members must be graduate students at time of application, at least one year into their PhD program.
- GSAC members should be outgoing, organized, and have demonstrated leadership skills.
- GSAC members must be able to communicate with graduate students from diverse locations and diverse backgrounds.
- GSAC members will make a reasonable effort to attend both summer meetings during their terms.
- GSAC members will make every effort to represent diversity in the following categories:
 - institution rank/size
 - locality (North American/non-North American)
 - ethnicity/gender
 - research focus/career stage

Guidelines for GSAC interaction with SSE Council

- SSE Council will select one student from each cohort to attend SSE Council mid-year and summer meetings, for a total of two student attendees. Expenses for the annual meeting will be paid up-front by individuals and reimbursed after the annual meeting by the EVP. SSE will reimburse coach-class travel, lodging, registration, and banquet ticket. Travel and lodging expenses for the midyear meeting are reimbursed by the publisher of Evolution.
- SSE Council will cover the meeting registration fee for all GSAC members attending the summer meeting.
- The most senior GSAC member who is chosen to attend meetings will serve as GSAC Chair, and act as the locus of communication between SSE Council and the GSAC.
- To facilitate GSAC participation and understanding of SSE's long-term objectives, all GSAC members will receive meeting documents from SSE Council meetings.

Guidelines for GSAC interaction with SSE student members

- GSAC members should always bear in mind that they represent SSE to the SSE membership.
- GSAC members must be open and available for communication with SSE membership.
- GSAC members should convey SSE news to SSE student members in a timely manner.
- GSAC members should provide, maintain and encourage activity in electronic and in-person forums that facilitate communication among SSE student members and prospective SSE members.
- SSE student member newsletters will be sent through the SSE Membership Coordinator (currently Heather Cacanindin).

Regular newsletters, drafted by the GSAC Chair and edited by the GSAC, should be sent to SSE student members. Content should include, for example, upcoming award application or conference deadlines, SSE news items, reminders to vote in SSE Council elections, and social or professional opportunities. It is recommended that the GSAC develop a regular student member newsletter schedule. Newsletters should be sent at least quarterly, at the following times:

1) **Winter**: immediately following the mid-year meeting, announcing news items or new initiatives undertaken by SSE Council during the course of the mid-year meeting, and reminding students of upcoming award application deadlines;

2) **Spring**: upcoming conference registration deadlines and social/professional opportunities;

3) **Summer**: prior to the June Evolution meeting, reminding students of the SSE Student-Mentor mixer, workshops, and other opportunities during the meeting;

4) **Fall**: thanking students for a great Evolution meeting, any survey results, new initiatives, news items, professional/social opportunities, encouragement to vote in upcoming SSE officer elections.

Suggested roles for GSAC members

- Two GSAC members, one from each cohort, will represent student interests during attendance of SSE Council meetings (both mid-year and June). These

- students will also be responsible for organizing and operating the Evolution meeting SSE Student-Mentor Mixer.
- GSAC members should be willing participate in SSE Teaching or Professional Development workshops, as fits with their interests and abilities to attend these events.
 - The GSAC Chair's duties include: drafting and facilitating communication between the GSAC and SSE graduate student/postdoc membership; facilitating communication between the GSAC and SSE Council; drafting proposals for yearly meetings; organizing new GSAC initiatives; and attending SSE Council meetings.
 - Two GSAC members, one from each cohort, will assist in reading Rosemary Grant Award applications. Prior to application submission, these students are responsible for notifying the SSE North American Vice President of their intention to contribute.
 - Two GSAC members will be responsible for maintenance and contribution to SSE and GSAC Twitter and Facebook accounts.
 - The GSAC will work with one representative on Council, as well as the student representatives of SSB and ASN, to institute and operate the Women in Science events at the yearly Evolution meeting.
 - Other GSAC roles may be defined as determined by either SSE Council or the GSAC itself.

2017 SSE Committee Memberships

*Committee designated in Constitution or Bylaws
#Ad hoc committee appointed by Pres. and approved by council

***Nominating Committee**

Constitution, Article 5

Judith Mank (Chair)
Norman Johnson
Marc Johnson

***Finance Committee**

Descriptions of Ad Hoc Committees

Education and Outreach Committee

Goals of the Education and Outreach Committee:

- Identify effective ways for SSE to improve the quality of evolution education
- Serve as liaison to education organizations and institutions on the subject of evolution
- Provide opportunities for the SSE membership to consider educational issues
- Implement educational activities as approved by the SSE Council
- Provide leadership to the membership of SSE on educational issues

Duties of the Education and Outreach Committee Chair:

Conduct Education and Outreach Committee business

- Set agenda and chair business meeting (usually Monday breakfast at June meeting)
- Communication during the year (e.g. votes, subcommittee work, etc)
- Oversee committee membership (e.g. confirm new reps from ASN, SSB every 2 years)

Co-ordinate E & O Committee activities (serve ex-officio on sub-committees)

- Annual meeting events (Education Symposium, Public Outreach Lecture, K-12 Teacher Workshop, etc.)
- Education & Outreach events (NABT evolution education workshop, SACNAS, etc.)
- JH Huxley Award (presentation at NABT annual meeting)
- Education and Outreach Grants
- Gould Award (see below)
- Education pages of SSE web site (education materials, public policy statements, podcasts of Gould Award talks, etc.)

Assist the Council.

- Serve ex-officio on the SSE Council (attend Council June and mid-year meetings)
- Assist President & Executive Secretary on education/outreach/public policy issues (e.g. help draft letters or public statements regarding legislation affecting evolution education)

January

- Attend mid-year SSE Council meeting
-

March

- 1st
- Make sure local organizers put the education symposium, public outreach lecture and other education events on Schedule for the June meeting
-

May

- Contact E & O Committee members to set committee time and agenda

June

- Attend SSE Council meetings ex-officio
 - Chair Education & Outreach Committee meeting
 - Arrange for videotaping of Ed. Symposium
 - Introduce E & O Committee events (Ed. Symposium, Public Outreach lecture, etc.) or arrange for another committee member to do so
 - Call for nominations for Gould Award
-

September

15th Gould Award decision and logistics (see below)

Stephen Jay Gould Award Committee for Improving the Understanding of Evolution

With this annual award the Society for the Study of Evolution will recognize, promote and reward individuals who have increased public understanding of evolutionary biology and its place in modern science. The award would include a cash prize (\$5K) and the expectation that the recipient would present the Public Outreach Seminar at the Evolution Meeting (expenses for travel/lodging and registration would be covered by SSE).

The goal of this award is to promote increased visibility and understanding of evolutionary science in the general public. To this end, the award will recognize the efforts of an individual who has made significant contributions to communicating an understanding of evolution in the spirit of the activities pursued by Stephen Jay Gould. These contributions could involve writing, research, journalism, public speaking, or other forms of communication that raise public awareness of evolutionary biology and its importance in biological understanding, education, public policy and everyday life. The pool of potential awardees will be composed of research scientists and academics (including those in the fields of history, philosophy and sociology of science), as well as K-16 teachers and popular-science authors. While emphasis will be placed on making the evolutionary science accessible to the general public, contributions that bring current evolution research to undergraduate and secondary school biology teaching will also be considered. Focusing the criteria in this way recognizes the importance of understanding evolution to attaining scientific literacy and the important role that the current generation of students will play in the future development of evolutionary biology.

The selection committee will select an individual who has made a significant contribution to the public understanding of evolution using the following criteria:

- Writing and/or public speaking that makes the theory of evolution and the findings from research in evolutionary biology more accessible to the general public
- Activities related to defending evolutionary biology research and teaching from attacks by anti-evolutionists
- Showing innovation and dedication to teaching evolution in a way that can be a model for others
- Creating evolution education materials or other resources that have advanced the teaching and learning of evolution

The selection process:

1. An open nomination period from the annual meeting until Sept. 1

2. Nominations are forwarded to the award committee—Composed of two members from the Education committee and two from SSE Council (the two Council members in the second year of their term)—who add their own recommendations and then collect application materials from nominees, discuss and decide on a recipient by Oct 1.
3. Booking the outreach seminar, preparing the award announcement, making arrangements to invite the public to the outreach seminar, etc., should be completed within 5 months of the annual meeting.

Duties of the Gould Committee:

(1) Arrange for videotaping. Have the camera stay tightly focused on the speaker (Waist up if at the podium. Full body if walking around on stage. Don't include projected slides; these will be edited in afterwards directly from the speakers slide deck.)

(2) If possible, arrange for an audio tape recorded from the speaker's lavalier microphone.

(3) Arrange to get the original video and audio tapes.

(4) Have a photograph taken on stage of the winner holding the award and, if possible, standing together with the SSE president and the chair of the Gould Award committee.

(5) Let the speaker know in advance that the talk will be videotaped and put on the SSE Education Committee YouTube site, so they should try to avoid use of any images that are copyrighted and would not be allowed under fair use.

(6) Fill in, print out, and be sure that the speaker signs the SSE media release form, which grants copyright to the SSE Education Committee.

(7) Get a copy of the speakers Powerpoint or Keynote slide deck. These will be edited into the videotape.

(8) Send all tapes and files to Rob Pennock (pennock5@msu.edu) for editing.

Diversity Committee (ad hoc, formed February 2017)

Mandate: The Diversity Committee will act to promote inclusivity in the Society of the Study of Evolution, regardless of race, age, gender, gender identity or expression, sexual orientation, marital or parental status, disability, ethnicity, nationality, veteran status or religious preference. The Committee will identify and support activities that increase inclusion, reduce obstacles, and promote career progression for underrepresented groups within the Society.

Chair: The Committee will be chaired by a member of Council. The Chair position will normally last for remainder of that Council member's term.

Composition: The Chair will appoint additional committee members from the general membership of the Society, each of whom will serve a three-year renewable term on the Committee. The Chair will seek approval of these nominations and term renewals from the Executive.

Meetings: The Committee will present a brief report on its activities to Council at the annual and mid-year Council meetings. The Committee will normally meet during the Society's Annual Meeting and will communicate throughout the year.

Funding: Membership and Committee activities are strictly voluntary. Requests for funding to conduct the Committee's business must be made to the Society's governing Council.

Additional Activities: In order to complete its tasks, the Committee may organize or support the organization of targeted activities, such as networking luncheons, panel discussions, mentoring teams, and workshops. The Committee will be in charge of sponsoring and/or organizing activities at the annual meetings that promote and enhance the diversity of the scientific community.

Education and Outreach Committee (ad hoc)

Mandate: The Education and Outreach Committee will serve to:

- Identify effective ways for SSE to improve the quality of evolution education
- Serve as liaison to education organizations and institutions on the subject of evolution
- Provide opportunities for the SSE membership to consider educational issues
- Implement educational activities as approved by the SSE Council
- Provide leadership to the membership of SSE on educational issues

Chair: The Committee will be chaired by an SSE member with Education and Outreach expertise. The Chair position will normally last for three consecutive years and may be renewed.

Composition: The Chair will appoint additional committee members from the general membership of the Society, each of whom will serve a three-year renewable term on the Committee. The Chair will seek approval of these nominations and term renewals from the Executive.

Meetings: The Committee will present a brief report on its activities to Council at the annual and mid-year Council meetings. The Committee will normally meet during the Society's Annual Meeting and will communicate throughout the year.

Funding: Membership and Committee activities are strictly voluntary. Requests for funding to conduct the Committee's business must be made to the Society's governing Council.

Additional Activities: Coordinate various Education and Outreach activities associated with SSE, including

- Annual meeting events (Education Symposium, Public Outreach Lecture, K-12 Teacher Workshop, etc.)
- Education & Outreach events (NABT evolution education workshop, SACNAS, etc.)
- JH Huxley Award (presentation at NABT annual meeting)
- Education and Outreach Grants
- Gould Award
- Developing and revising education pages of SSE web site

FINANCE COMMITTEE

Finance Committee (standing, formed by Article 4 of the Constitution)

Mandate: The Finance Committee shall be responsible for monitoring all aspects of the Society that affect financing. Proposed major changes in expenditures and/or income should be reviewed by the Finance Committee, following which the committee will make specific recommendations to the Council for its approval.

Chair: The Committee will be chaired by the Executive Vice-President throughout his/her term.

Composition: The Finance Committee shall consist of the Executive Vice-President, the past Executive Vice President, and two additional members of the Society elected for two-year terms. The additional members shall be nominated by the President and elected by the Council at the annual meeting of the Society. In the circumstance that the past Executive Vice-President is unavailable to serve, a third nomination will be sought by the President.

Meetings: The Committee will submit its concerns or its approval of budgetary issues to Council at the annual and mid-year council meetings. The Committee will communicate as needed throughout the year.

Funding: Membership and Committee activities are strictly voluntary. The Committee should have no financial impact on the Society.

Additional Activities: This committee will review the audit (performed externally by a professional auditing service) and make a recommendation to Council to approve/disapprove the audit in time for the annual meeting, will review the investment strategy taken by the Executive Vice President, will review changes to the budget recommended by Council, and will provide guidance on financial matters as they arise. In cases where the Committee recommends against an item approved by Council, the Committee's reasons will be transmitted to Council for revote and/or revision. A revote on the budgetary item then requires a two-thirds majority vote by Council to override the Finance Committee and be approved.

International Affairs Committee

Goals of the International Affairs Committee:

- Foster relationships and coordinate initiatives between SSE and other non USA-based evolutionary oriented societies
- Foster contacts between young scientists from different countries

Duties of the International Affairs Committee Chair:

- To establish a committee which will formulate proposals to be submitted to the SSE council
 - This committee should include the non-North American vice president and can be made up of as many people as deemed adequate by the chair.
- To convene a meeting of the international committee at the SSE meeting
- To present the initiative suggested by the committee to the SSE council
- To write an annual report of the committee activities
- To chair the committee to evaluate the applications for international travel awards

Hamilton Award Committee

The Hamilton Award was initiated in 2008. This is an award for an outstanding student presentation at the Evolution meeting. Students apply to have their talks evaluated for the award and these abstracts are screened by the Hamilton Award evaluation committee. A subset of abstracts is selected for evaluation at the meeting. A minimum of three judges evaluate each talk with a standard ballot. The Awards Committee then processes all the ballots, compiles the scores for each student presentation, and then decides on a winner to be announced at the SSE banquet.

The Hamilton Award Committee has the following responsibilities:

- Evaluate the submitted abstracts of presentations and select a subset for evaluation at the annual meeting.
- Recruit judges for evaluation of the presentations
- Coordinate with the meeting organizers to acquire the schedule of student presentations
- Take information from the meeting schedule and compile a spreadsheet of student presentations with their times, session, and location (not trivial)
- Finalize the score sheet and instructions for the judges

- Assign judges to talks, accommodating time conflicts and conflicts of interest (not trivial)
- Check the final judging assignments and presenter schedule, and list errata
- Meet with judges at the beginning of meeting to discuss judging procedures
- Tally scores and participate in final award selection
- Make presentation at the banquet

Further information about the application and judging processes can be found at <http://cms.gogrid.evolutionsociety.org/index.php?module=content&type=user&func=view&pid=15>

Policy Committee (ad hoc, formed February 2017)

Mandate: The Policy Committee will advise the Executive and Council on issues of science and public policy. In particular, the Committee will monitor changes to policies and laws that impact evolution as a field, the support and integrity of scientific research, and/or the research of SSE members. The Committee will liaise with other appropriate international, national, and organizations with similar goals with respect to advancing evolutionary science, and provide advice to the Executive and Council about activities that are worth pursuing in keeping with the Society's mission. Release of reports, policy documents, and public statements must be vetted through the Society's Executive.

Chair: The Committee will be chaired by a member of Council. The Chair position will normally last for remainder of that Council members term.

Composition: The Chair will appoint additional committee members from the general membership of the Society, each of whom will serve a three-year renewable term on the Committee. The Chair will seek approval of these nominations and term renewals from the Executive.

Meetings: The Committee will present a brief report on its activities to Council at the annual and mid-year Council meetings. The Committee will normally meet in person at the Society's Annual Meeting and will communicate throughout the year.

Funding: Membership and Committee activities are strictly voluntary. Requests for funding to conduct the Committee's business must be made to the Society's governing Council.

Additional Activities: In order to complete its tasks, the Committee may choose to sponsor workshops and symposia, to interact with the AIBS, AAAS, and other organizations involved in science policy, and to host/attend other events as the Committee deems necessary and appropriate.

Rosemary Grant Award Committee

The Rosemary Grant Award for Graduate Student Research was initiated in 2010. The Secretary has on file the call for applications, which should be sent out in November, and again in January, with a deadline of February 1. The business office creates a spreadsheet of applicants. Each Vice President will chair the committee in the second year of their term. The committee includes both Vice Presidents and Council members in the first and second years of their terms. Two graduate student members may also serve on the committee. The committee Chair assigns proposals such that at least two members read each one. Committee members should swap proposals in the case of conflicts of interest (e.g. same institution, collaborator lab).

1. Criteria

The scoring is based on 15 pts, with equal weighting for the different categories. Below, 1 is low and 5 is high, where the numbers can be thought of as poor, fair, good, very good and excellent.

- Overall quality of proposal preparation, including motivation: 1-5.
- Experimental design: 1-5.

- Significance (likelihood of publication in *Evolution*): 1-5.

2. Review process

The committee Chair will establish a process for submission of scores and discussion of applications with the goal of identifying award winners by March 1. Typically 20-25 projects will be awarded in a given year. Awards will be announced at the banquet at the SSE annual meeting.
